## COVID-19 (novel coronavirus) update

As a valued Sundale team member, I wanted to provide you with an update and outline Sundale's current approach to managing the COVID-19 situation.

### COVID-19 UPDATE FOR RESIDENTIAL AGED CARE

Queensland Health strongly encourages anyone working in the residential aged care sector to obtain their COVID-19 vaccination as soon as possible.

To support the aged care sector, the Queensland Government is taking a more active role in the vaccination of residential aged care workers.

The Pfizer/BioNTech COVID-19 vaccine is now available to all Phase 1a and 1b frontline workers in Queensland regardless of age via Queensland Health vaccination clinics. **This includes residential aged care workers.**

### HOW TO BOOK YOUR VACCINATION

#### [Register your interest](#)

- Step 1: Click the link [Register your Interest](#) and enter your personal details.
- Step 2: Select the cohort titled 'Residential Aged Care Worker'. It is not mandatory to enter your Medicare number or a registration code.
- Step 3: You will be sent an email confirming your registration.

#### **Book your appointment**

Once you have registered your interest, you will be sent an email with instructions on how to book an appointment when clinic time and vaccine is available.

**IMPORTANT: For those over 50 wishing to receive Pfizer/BioNTech they must select a vaccination clinic available to 'all ages' or 'under 50' when they make their booking.**

Information about the vaccine, what to expect on the day of your vaccination and how Queensland Health is committed to protecting your privacy and confidentiality can be found [here](#).

For more information about the COVID-19 vaccine program, please visit the [Queensland Health website](#).

Sundale will continue to work with Queensland Health and make responsible, considered decisions to help minimise the threat of COVID-19 entering Sundale.

Yours sincerely,

Danielle Mackenzie  
Sundale CEO
